

PARKING PROTECTION

Parklio's parking protection products will **help you control your parking access**, so you never have to worry about having unauthorized cars parked on your property.

Smart Protection for Every Parking Setting

Parklio provides app-controlled parking protection, safeguarding your valuable parking spaces with intelligent, durable, and weather-resistant products designed for residential, commercial, and industrial settings.

Quality You Can Trust

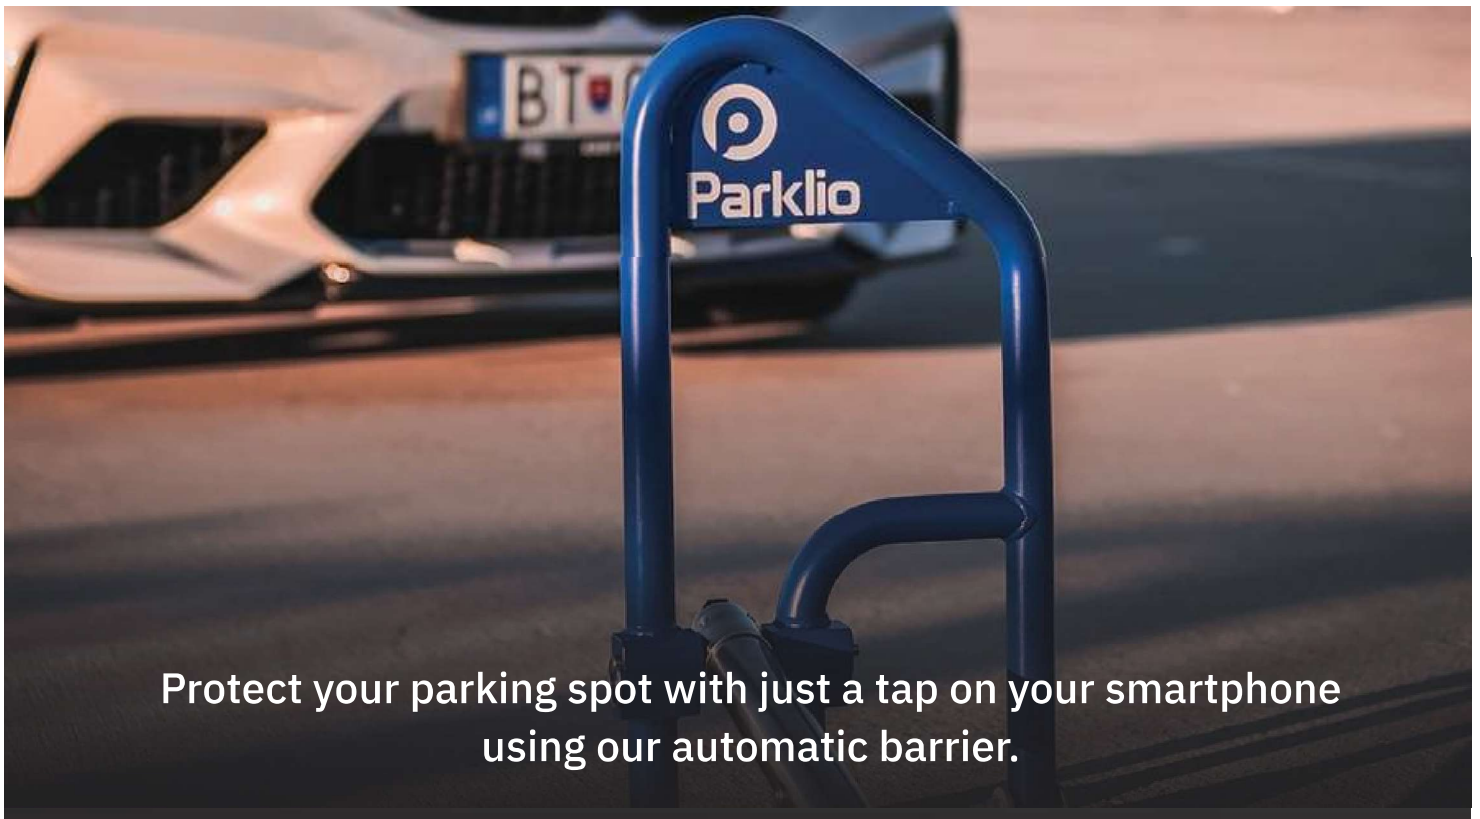

Parklio's commitment to quality is backed by a comprehensive warranty that reflects the durability and reliability of each product. Coverage terms and periods are clearly defined in the official Parklio warranty document, ensuring transparency and long-term customer assurance.

Reliable and Certified

All the products have earned the highest certifications, including **CE, ROHS, and FCC**. These certifications stand as a testament to Parklio's unwavering commitment to quality and safety. Parklio takes pride in exceeding industry standards, ensuring that our products not only meet but exceed your expectations.

Tailored to Your Needs

Parklio's parking protection products offer seamless customization to align precisely with your unique requirements. Engineered to cater to the parking access control demands of every sector, from retail parking lot security to educational institutions, office parks, city parking facilities, and beyond.

Protect your parking spot with just a tap on your smartphone using our automatic barrier.

Parklio™ Barrier

is a smartphone-controlled barrier that safeguards parking spaces against unauthorized usage. Seamlessly connected through Bluetooth to a smartphone or tablet, it allows for effortless raising and lowering of the barrier directly from the vehicle. With a sleek and durable design, Parklio™ barriers protect your parking area and enable you to easily share access with whomever you choose.

CUSTOM MODEL

Experience unmatched convenience with our custom solution, designed to meet your unique needs for a safe, smart, and reliable parking.

Parklio™ Custom Solution

is the ideal choice for businesses looking for tailor-made parking solutions. We understand the value of customization, and the Parklio team is committed to working closely with you to craft a parking solution that perfectly aligns with your specific needs, integrating unique operating characteristics, cutting-edge technologies, and customizable options.

Make your vision a reality

CONCEPTUALIZATION

Share your parking vision, and we'll transform it into a tailored concept, no matter the project's size.

DEVELOPMENT

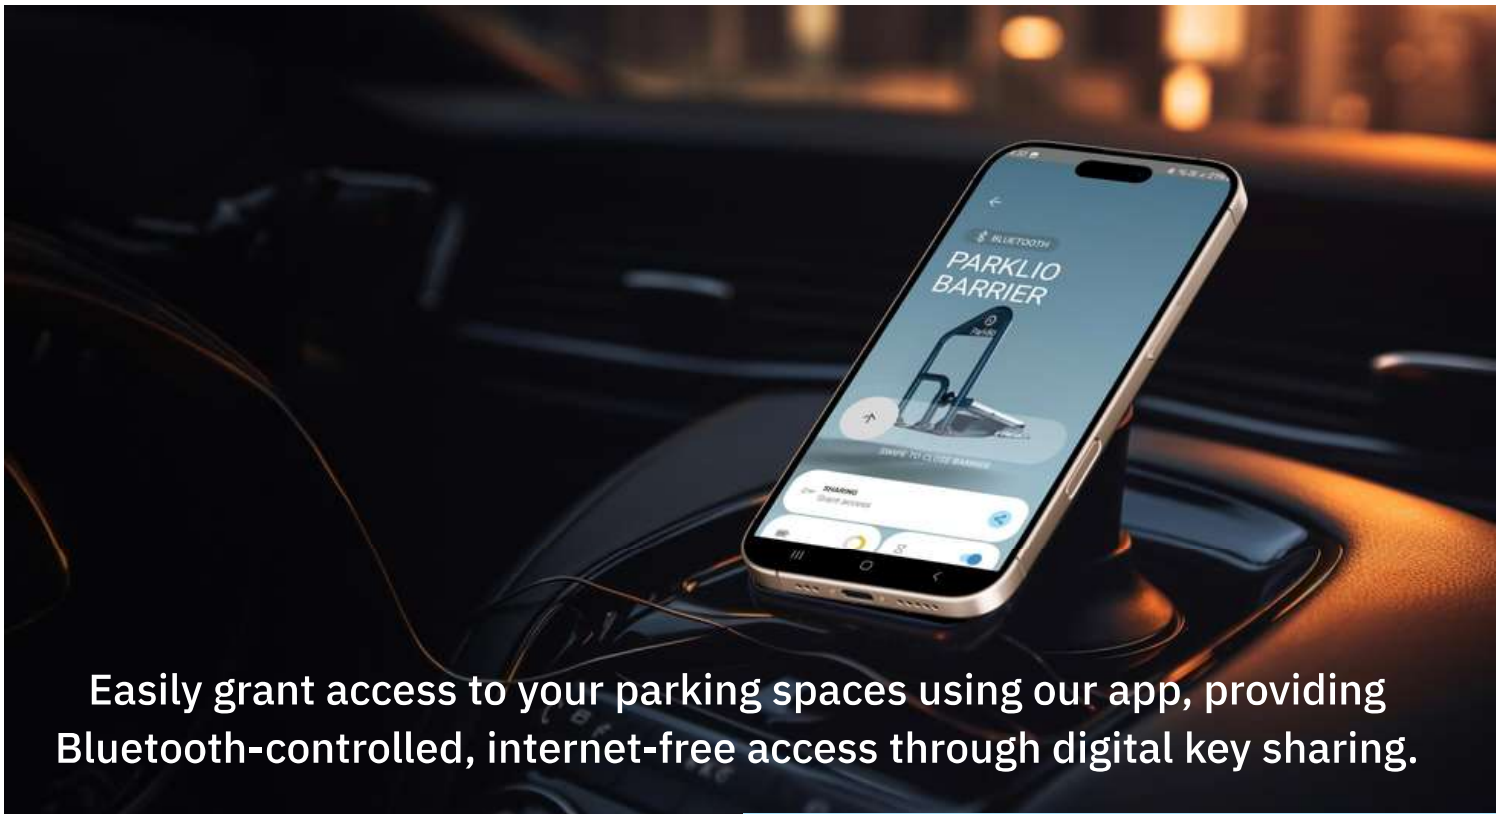

Leverage advanced Parklio technology as we turn your concept into a tangible solution.

IMPLEMENTATION

Approve the project, and Parklio will seamlessly implement your custom solution with detailed instructions.

SUPPORT

Receive continuous training and expert guidance after installation to ensure your comfort with the new technology.

Easily grant access to your parking spaces using our app, providing Bluetooth-controlled, internet-free access through digital key sharing.

Parklio™ Connect

is a free mobile app designed to manage and control Parklio parking protection products, using a smartphone or tablet. With Parklio Connect, users can easily add new products to their accounts, manage access and view the status of their parking protection, all from one simple-to-use interface. The app uses Bluetooth technology to connect with parking protection products, ensuring a secure and reliable connection, even in areas with limited signal strength.

Unique Features of the Parklio™ Connect App

- Bluetooth-based app
- No need for internet connection
- Simple to use interface
- Key sharing and scheduling
- Navigation to the barrier location

Easily grant access to your parking spaces using our app, providing Bluetooth-controlled, internet-free access through digital key sharing.

Parklio™ Wallet

is a user-friendly mobile app designed for cashless parking payments. By scanning QR codes at the entry and exit points, users can quickly pay using their mobile wallet. The app's intuitive design ensures simple navigation, while compatibility with Android and iOS provides accessibility for all users. Best of all, Parklio™ Wallet includes free lifetime updates, ensuring access to the latest features and keeping the app secure at no additional cost.

Unique Features of the Parklio™ Wallet App

- Secure, cashless mobile payments
- Instant payment processing and confirmation
- Intuitive app interface
- Available for Android & iOS
- Free download with continuous updates

Elevate your business using our API or SDK to enhance parking security, optimize operations, and innovate services.

Parklio™ API and SDK

are versatile tools designed for seamless integration of your existing systems with Parklio products, so you can scale your operations and monitor parking space usage in real time. Our technology can be integrated with your website and mobile apps to show available spots to your customers when they are looking for a place to park, optimize the use of your parking facility, reduce traffic, and cut down on operational costs.

Parklio API Integration Cases

T-Mobile enhanced their EV reservation app by incorporating Parklio Barriers and API, guaranteeing reserved EV charger availability. The barrier secures the spot until users unlock it using a digital key, providing a top-notch customer experience.

OMV and Parklio have launched a pilot project at OMV petrol stations in Hungary with the goal of improving the user experience by integrating Parklio API into OMV's evolving parking system.

Sonae Sierra's parking reservation app enhances shopping mall visits through Parklio API integration, enabling users to reserve, pay for, and control Parklio Smart Barrier-protected spots for improved satisfaction and efficiency.
